ALUMNI & THEIR PARENTS SAY...

"Our child attended a rigorous private high school and felt that much of the freshman and sophomore material being taught in class was content that she already had learned at MSD."

- Alumni Parent

"Our daughter has been overly prepared for high school. While she is academically prepared, we are more impressed with her ability to regulate the work, plan and organize her materials which has led to her success so far. She currently just finished the first trimester at a private high school."

- Alumni Parent

"As my child prepares their college applications, I see a well-rounded student who values their community and the needs of others. This is a foundation that was strengthened through their time at MSD,"

- Alumni Parent

"MSD has taught me that the point of school is actually learning, not just getting good grades. This has really helped me enjoy school and learn more, rather than thinking what I am doing is only for a test."

- MSD Alumna

HIGH SCHOOLS SAY...

MSD students are academically high-achieving with engaged parents - very little heavy-lifting for us."
